

InDesign 2.

Recommendation

For easier further file processing, we recommend that the number of pages in a file does not exceed one hundred pages, or fifty pages in more multiform work. Name the file by its work reference number (or ISBN_number) and page number gap, e.g. 654321_001_036

Recommend

We recommend that the layout files are tested with Indesign's own preflight system.

Requirement

PDF is created with Acrobat Distiller program.

AdobePS printerdriver.

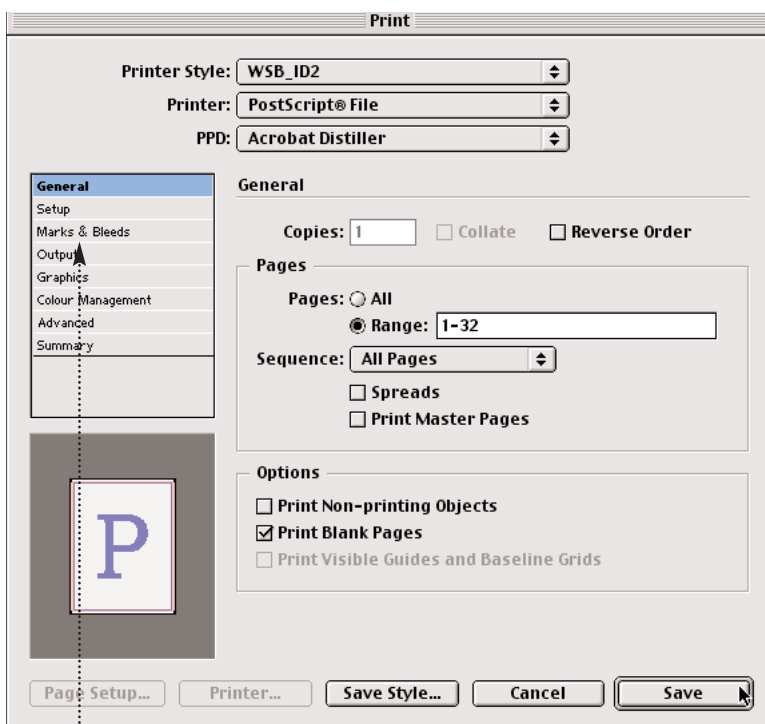

PPD is Acrobat **Distiller 301.xx.xx** or newer.

The completed **WSB_ID"** Printer Stylet is used as follows:

File / Printerstyle / Define / Load

Print...

▲ In the cover, Offset and all Bleed values are 15 mm
